OFFSET ATTENUATOR BUILDING PROJECT

Several members of the Club have expressed interest in building the Offset Attenuator that was used during the last Fox Hunt. Stu (N2YMI) and Jim (WB2EDO) have been able to put together a kit that is extremely easy to build in a short period of time. The entire kit will run about \$25.00. The kit will include a small pc board with all major parts already mounted and the supplemental parts (i.e. project box, 2 female BNC panel mount connectors, 1 spst switch and battery (v) holder). So that we can have the kits ready for distribution at the October 20th meeting, we will need to know the number of people who wish to participate by October 1st. Please contact either Stu Blank (N2YMI) at (973)822-0764 or E-mail at slob@lucent.com or Jim Brown (WB2EDO) at (973)829-1892 or E-mail at mrjmb@optonline.net by October 1st to express your interest.
